

One Post to Rule Them All

David Crow

Hard to believe that it has been 21 months since I wrote [Don't Panic: A Hitchhiker's Guide to the Toronto Startup Ecosystem](#). There are parts of this post that are a little dated but it generally holds up as a meaningful introduction to the Toronto startup scene. The goal is to provide a curated list, **it will not be comprehensive**.

If I've missed anything, add a comment or ping me directly [@davidcrow](#) and I'll make updates on the fly.

People & Companies

There are so many people and companies, it is hard to know what is important to whom. I will do a separate posting with the companies and founders that I've been following. The challenge is that this is a long, long list and there are a lot of amazing companies in Toronto.
